Johan Halvardsson new President and CEO of Eleda Group

The Board of Directors of Eleda Group has appointed Johan Halvardsson as President and CEO. Since 2013, Johan is the Managing Director of Mark & Energibyggarna i Göteborg AB, a company within Eleda Group. Johan, who resumes the position with immediate effect, has extensive experience from the construction industry and has previously held various managerial positions within Skanska and Peab.

“We are very pleased to be able to present Johan Halvardsson as the new President and CEO of Eleda Group. With Johan's long and solid experience from the industry and his excellent leadership, the Board is convinced that he is the right person to develop and establish Eleda Group as a significant player in construction and construction services within infrastructure”, says Mats O Paulsson, Chairman of the Board of Eleda Group.

Johan Halvardsson has been Managing Director and CEO of Mark & Energibyggarna since 2013 and has previously held various managerial positions within Peab and Skanska since 1994. Johan continues until further notice alongside the role as CEO for Eleda Group his role as Managing Director of Mark & Energibyggarna.

“I am very proud of the confidence to lead this relatively newly established Group with as of today, three regionally leading companies in southern and western Sweden. Our entrepreneurial spirit, as well as our long and close customer relationships, together with strong underlying demand, give us all the conditions for establishing Eleda Group as a national player. I look forward to, together with all of my colleagues, taking the next step of this journey”, says Johan Halvardsson, President and CEO Eleda Group.

About Eleda

Eleda Group is an expansive group focusing on civil engineering, contract and other services in infrastructure. The Group operates via regional companies across southern and western Sweden, currently Akeab, KEWAB and Mark & Energibyggarna, all of which have similar business models and operational focus. Eleda Group's corporate culture is marked by a strong entrepreneurial spirit, and the companies work independently in complementary geographical areas with the goal of being a leading player in their respective regional markets. Eleda Group, which has its headquarters in Stockholm, has around 800 employees and sales of approximately SEK 2.5 billion in 2018. Eleda Group is owned by Triton and a broad group of key individuals in the Group.
